

Dominantly Inherited Alzheimer Network Trials Unit (DIAN-TU)

The DIAN-TU acknowledges the many individuals who have contributed to the DIAN-TU Trials including funding partners, leadership team, core leaders, project arm leaders, study sites and institutional study partners. All manuscripts should include an acknowledgement of the DIAN-TU Team located at DIAN.wustl.edu.

Funding Partners

Through public/private support and partnership, the DIAN-TU has launched trials to provide advancement of treatments, scientific understanding and improvements in the approach to Alzheimer's disease drug developments.

- ❖ DIAN-TU Trial Pharma Partners: **Lilly (Solanzemab), Roche (Gantenerumab) and Janssen (BACEi)**
- ❖ Alzheimer's Association
- ❖ GHR Foundation
- ❖ National Institute on Aging of the National Institutes of Health; Accelerating Medicines Partnership (AMP) - **U01 AG042791, R01 AG046179, R01/R56 AG053267, R13 AG055232**
- ❖ DIAN-TU Pharma Consortium: **Biogen Idec, Eisai, Janssen, Lilly, Roche/Genentech, United NeuroScience** (Former Members: *Abbvie, Amgen, AstraZeneca, Elan, Forum, Mithridion, Novartis Pharm AG, Pfizer, Sanofi-Aventis*)
- ❖ CogState
- ❖ Bracket
- ❖ Avid Radiopharmaceuticals
- ❖ Anonymous Foundation

DIAN-TU DSMB Members

The DSMB is an expert advisory group who functions as a review committee independent from the Sponsor. DSMB members meet without the Sponsor or study team members to review and discuss provided data. The DSMB scope is to review study data to ensure the safety of subjects enrolled in DIAN-TU-001.

Gary Cutter, DSMB Chairperson
Steve Greenberg
Scott Kim
David Knopman
Willis Maddrey
Kristine Yaffe
Karl Kieburtz (Retired DSMB Chairperson)
Allan Levey (Retired)

Dominantly Inherited Alzheimer Network Trials Unit (DIAN-TU)

DIAN-TU Therapy Evaluation Committee

The DIAN-TU established a Therapy Evaluation Committee comprised of worldwide experts in AD research and clinical studies from multiple institutions to vet and evaluate compounds nominated for participation in the DIAN-TU trial. Areas of expertise include clinical trials in AD and other diseases, autosomal dominant and sporadic AD, immunotherapy, neurodegenerative disorders, cell and molecular biology of AD, preclinical AD studies, proteomics (AD related proteins), AD neuropathology, cognitive and clinical testing, cerebral amyloid angiopathy, neuroimaging, translational AD trials, and tau biology.

Randall Bateman, MD, Chair

Eric McDade, DO, Co-Chair

Paul Aisen, MD, Alzheimer's Therapeutic Research Institute (*Clinical trials*)

Jasmeer Chhatwal, MD, PhD, MMSc, Massachusetts General Hospital, Harvard Medical School (*imaging*)

David Clifford, MD, Washington University School of Medicine (*Medical Director, DIAN-TU Trials*)

David Cribbs, MD, UC Irvine, (*immunotherapy*)

David Holtzman, MD, Washington University School of Medicine (*Neurodegeneration, animal models*)

Matthias Jucker, PhD, Hertie Institute for Clinical Brain Research (*translational AD*)

Jeff Kelly, MD, Scripps (*proteomics*)

Virginia Lee, PhD, University of Pennsylvania, Perelman School of Medicine (*tau biology*)

Cynthia Lemere, MD, BWH (*immunology*)

Erik Musiek, MD, PhD, Washington University School of Medicine (*translational AD*)

Erik Roberson, MD, PhD, University of Alabama (*tau proteins*)

Mathias Staufenbiel, PhD, Hertie Institute for Clinical Brain Research, Tubingen (*pre-clinical and clinical AD studies*)

Robert Vassar, PhD, Northwestern (*cell and molecular biology*)

Former TEC Members

Bart DeStrooper, PhD, VIB, K.U. Leuven

William Klunk, MD, PhD, University of Pittsburgh

John C. Morris, MD, Washington University School of Medicine, St. Louis, MO
